## Soldering Iron Handles

A wide range of models to choose

**Short distance tip-to-grip** for greater precision

**Variety of grips and different models** for every need

Over **400** compatible **cartridges**

JBC offers you a **wide range of Soldering Iron Handles** for you to choose the one which best suits your work needs.

Perfect handling of the tool is essential for hand soldering, especially in intensive or high-precision jobs. The JBC handles with pencil shape **perfectly fit into your hand** and guarantee an optimum grip thanks to their **ergonomic** shape.

The **handle size**, the **grip type** and the **set screw** are some features to consider when making your best choice.

**For C210 Cartridge Range**

E 1:1

The T210 is perfect for **precision soldering jobs** with medium power requirements.

For its size, it can work with **conventional** or **small SMDs**, even under a microscope.

**T210-A Precision purposes**

**T210-PA Blue Grip**

Quickly distinguish it from other handles

**For C245 Cartridge Range**

E 1:1

This general purpose soldering iron handle is perfect for both **SMD components** and jobs with high power requirements (e.g. ground plane soldering).

**T245-A General purposes**

**T245-PA Blue Grip**  
Quickly distinguish it from other handles

**T245-C Soft Grip and Thermal Insulation**

Soft Foam

**T245-B Non-slip Grip**

**T245-NA Nitrogen**  
Features a Nitrogen feed

Nitrogen feed

**For C245 & C470 Cartridge Range**

E 1:1

**Heavy Duty**

For **intensive** soldering jobs requiring continued high thermal power. They feature a **non-slip-grip** with a good thermal insulation and a **screw** which fixes the cartridge and prevents rotation.

**T470-ZA Tri-lobed grip**  
For better handling

Tri-lobed shape

**T470-A General purposes**  
**T470-SA General purposes with 3m cable**

**T470-FA Thermal Insulation**  
**T470-MA Thermal Insulation with 3m cable**

Foam

Note: All models are supplied with a 1.5m cable.

Note: All models are supplied with a 1.5m cable unless specified with 3m.

# T245-C Soft Thermal Insulator Handle

Reduce the **heat sensation** in your hands and improve the control of tool

## Soft Thermal Insulator

The T245-C Soft Thermal Insulator Handle has a foam grip that is soft to the touch and provides greater thermal insulation that significantly reduces the sensation of heat.

## Greater comfort at work

The ergonomics and the short distance tip-to-grip provide greater precision and comfort which is ideal for general purpose jobs.

## Perfect handling

The JBC handles with pencil shape perfectly fit into your hand and guarantee an optimum grip thanks to their ergonomic shape. This is essential for hand soldering.

## Easy grip replacement (Ref. 0016057. Supplied in boxes of 4 grips)

With these special **slip-on tabs** you can easily replace the damaged grip as follows:

1. Put the slip-on tabs into the new grip.

2. Insert the grip with the tabs onto the handle.

3. To remove the tabs, hold the grip and pull.

**ESD** safe
